

How to create your own T-SHIRT BAG

AN OLD
T-SHIRT

YOU WILL NEED

SCISSORS

MARKERS FOR
DECORATION

STEP 1

Lay T-shirt down on flat surface. Draw a curved dotted line below the neckline of the t-shirt and on the line where the sleeves begin.

STEP 2

Use the scissors to cut off the arms and along the dotted neck lines. Also cut off the bottom seam.

STEP 3

Draw a dotted line with your marker approx. 6cm from the bottom edge of t-shirt.

STEP 4

Now hold the front and back material together and use the scissors to cut 2cm strips from the bottom to the dotted line. Cut both sides at the same time.

STEP 5

Turn your shirt inside out. Tie each cut strip with the back strip, make a knot. This will seal the bottom of the t-shirt.

FANCY A FRINGE?

If you like tassels, tie the knots on the outside of t-shirt. This will create a little fringe effect.

YOUR BAG IS READY TO USE!

BEE HEALTHY TIP: Personalise your bag by decorating it using pens.
